

## **MARCO GRUELLE**

*Founder of DTCare and President of the Board*

DTCare was born in 2019 from Marco Gruelle's vision to give back and help those in need who are often overlooked by larger non-profit organizations. He believes that "smaller actions combined are often more effective than a solo large effort."

Marco obtained a Juris Doctor Degree from Duquesne University as well as a Liberal Arts Degree from Bard College. Marco oversees the DTCare team in its entirety, enforces the company's organizational mission and vision, leads grant review and US Government relations, and is part of the advisory committee for legal and compliance.

Marco leverages his legal and managerial experience as well as his connections gained through many years of work in the logistics industry to guide the DTCare team passionately and decisively.
